

TradeFlow NG

Field Interview & Outreach Sheet

For traders, wholesalers, aggregators, and market sellers. 10–15 minutes. Discovery before demo — do not mention TradeFlow NG until Section B.

Date: 11/9/2020	Market: Apata	State: Oyo State
Interviewer: Elijah Essang	Media ref (voice/video): Voice	Respondent's first name (optional): Mrs Olade Agemole

Respondent profile — capture this before starting Section A

Job type: ☐ Wholesaler ☒ Retailer ☐ Aggregator ☐ Farmer-seller ☐ Other:	Commodity/ies traded: Pepper	Years in this market: 4–5 years
--	---------------------------------	------------------------------------

SECTION A — Discovery — Understand Before You Pitch

Do not mention TradeFlow NG, apps, forecasting, or AI in this section. Let them talk. Don't suggest answers.

Q1

Walk me through the last time you bought or sold this commodity. How did you decide where to buy, where to sell, and what price to accept?

Workflow — the actual decision process, not their description of a problem.

Response (write, voice note ref, or video timestamp):

Sasa market is one of the cheapest
market you can buy pepper in Ibadan

Q2

What made you decide to make that particular trip or trade at that time?

Trigger — the moment the decision becomes necessary. Product timing depends on this.

Response (write, voice note ref, or video timestamp):

Low on stock

Q3

Tell me about a time you moved goods and the market didn't go as expected. What happened?

Where it breaks — a story is stronger evidence than an opinion. Listen fully, don't interrupt.

Response (write, voice note ref, or video timestamp):

It became second grade goods
but we keep pushing

Q4

When you're deciding, what information do you currently rely on — calls, WhatsApp groups, drivers, personal experience, market associations? Where does that usually come from?

Current alternatives — reveals the informal network you're actually competing with, not "guesswork."

Response (write, voice note ref, or video timestamp):

I go to the market directly
I send drive

Q5

What does that cost you — in money, time, or lost profit? (Probe for a number: airtime, transport, a driver's tip, a middleman's cut, a wasted trip.)

Cost of workaround — this is stronger pricing evidence than any "would you pay NX " question.

Response (write, voice note ref, or video timestamp):

Driver tip
Transportation

Q6

How often does this happen — every trip, monthly, only a few times a year?

Frequency — a real problem that happens rarely is not necessarily a startup problem.

Response (write, voice note ref, or video timestamp):

Whenever the stock finishes
3 times a week

Q7

Do you know other traders who deal with the same issue?

Referral — your next warm introduction and a signal the pain is shared, not personal.

Response (write, voice note ref, or video timestamp):

Yes

TradeFlow NG

Field Interview & Outreach Sheet

For traders, wholesalers, aggregators, and market sellers. 10-15 minutes. Discovery before demo — do not mention TradeFlow NG until Section B.

Date: 11/9/2026	Market: Apata	State: Oyo State
Interviewer: Olatilela Jaojuwa	Media ref (voice/video): Voice	Respondent's first name (optional): Mrs Fagenu

Respondent profile — capture this before starting Section A

Job type: ☒ Wholesaler ☐ Retailer ☐ Aggregator ☐ Farmer-seller ☐ Other:	Commodity/ies traded: Rice	Years in this market: 3 years
--	-------------------------------	----------------------------------

SECTION A — Discovery — Understand Before You Pitch

Do not mention TradeFlow NG, apps, forecasting, or AI in this section. Let them talk. Don't suggest answers.

Q1

Walk me through the last time you bought or sold this commodity. How did you decide where to buy, where to sell, and what price to accept?

Workflow — the actual decision process, not their description of a problem.

Response (write, voice note ref, or video timestamp):

Abeokuta market is cheap for rice
I bought rice at Abeokuta market because prices are cheaper there. Before going I checked with a few contacts.

Q2

What made you decide to make that particular trip or trade at that time?

Trigger — the moment the decision becomes necessary. Product timing depends on this.

Response (write, voice note ref, or video timestamp):

There was demand from my customers. Also my stock was getting low so I needed to restock quickly.

Q3

Tell me about a time you moved goods and the market didn't go as expected. What happened?

Where it breaks — a story is stronger evidence than an opinion. Listen fully, don't interrupt.

Response (write, voice note ref, or video timestamp):

Complain to seller
or Return

Q4

When you're deciding, what information do you currently rely on — calls, WhatsApp groups, drivers, personal experience, market associations? Where does that usually come from?
Current alternatives — reveals the informal network you're actually competing with, not "guesswork."

Response (write, voice note ref, or video timestamp):

Call the market
make more than one phone call to the
market just to confirm the prices

Q5

What does that cost you — in money, time, or lost profit? (Probe for a number: airtime, transport, a driver's tip, a middleman's cut, a wasted trip.)
Cost of workaround — this is stronger pricing evidence than any "would you pay NX" question.

Response (write, voice note ref, or video timestamp):

Call card

Q6

How often does this happen — every trip, monthly, only a few times a year?
Frequency — a real problem that happens rarely is not necessarily a startup problem.

Response (write, voice note ref, or video timestamp):

5 times a week

Q7

Do you know other traders who deal with the same issue?
Referral — your next warm introduction and a signal the pain is shared, not personal.

Response (write, voice note ref, or video timestamp):

few more

SECTION B — Demo & Trust — Only After Section A is Complete

Now you may show the dashboard. Watch reaction before you explain features.

Q8 [Show one trade recommendation on the dashboard.] If you knew this every week, would it change what you do — and why or why not?
Reaction to the actual product, not a hypothetical about information in general.

Response (write, voice note ref, or video timestamp):

No, because I sell within this market

Q9 Have you ever used an app, SMS service, or WhatsApp platform to trade or get prices before? What happened?
Prior digital behavior — tells you if trust is a live barrier or a non-issue.

Response (write, voice note ref, or video timestamp):

No, I only use Call card

Q10 What would make you trust a recommendation like this enough to act on it with real money?
Trust barrier — historical accuracy, a known agent, seeing the underlying prices, etc.

Response (write, voice note ref, or video timestamp):

If it comes with Fundraising

SECTION C — Outreach & Conversion

Only ask this once genuine interest is shown. Give them something concrete to do next.

Field Interview & Outreach Sheet

For traders, wholesalers, aggregators, and market sellers. 10-15 minutes. Discovery before demo — do not mention TradeFlow NG until Section B.

Date: 11/9/2016	Market: Apata	State: Oyo State
Interviewer: Elijah Essang	Media ref (voice/video): Voice	Respondent's first name (optional): Mrs Abibat

Respondent profile — capture this before starting Section A

Job type: ☐ Wholesaler ☒ Retailer ☐ Aggregator ☐ Farmer-seller ☐ Other:	Commodity/ies traded: Crayfish Jamu	Years in this market: 3 years
---	---	----------------------------------

SECTION A — Discovery — Understand Before You Pitch

Do not mention TradeFlow NG, apps, forecasting, or AI in this section. Let them talk. Don't suggest answers.

Q1

Walk me through the last time you bought or sold this commodity. How did you decide where to buy, where to sell, and what price to accept?

Workflow — the actual decision process, not their description of a problem.

Response (write, voice note ref, or video timestamp):

From Farm

Q2

What made you decide to make that particular trip or trade at that time?

Trigger — the moment the decision becomes necessary. Product timing depends on this.

Response (write, voice note ref, or video timestamp):

When ever my stock / goods is getting low / there is a demand for a particular thing I don't have.
--

Q3

Tell me about a time you moved goods and the market didn't go as expected. What happened?

Where it breaks — a story is stronger evidence than an opinion. Listen fully, don't interrupt.

Response (write, voice note ref, or video timestamp):

It will go the second day
I kept proposing it to people, so that
they would buy.

Q4

When you're deciding, what information do you currently rely on — calls, WhatsApp groups, drivers, personal experience, market associations? Where does that usually come from?

Current alternatives — reveals the informal network you're actually competing with, not "guesswork."

Response (write, voice note ref, or video timestamp):

Directly to the market
Send the driver

Q5

What does that cost you — in money, time, or lost profit? (Probe for a number: airtime, transport, a driver's tip, a middleman's cut, a wasted trip.)

Cost of workaround — this is stronger pricing evidence than any "would you pay NX " question.

Response (write, voice note ref, or video timestamp):

Difference in cost
Driver tip
Call card

Q6

How often does this happen — every trip, monthly, only a few times a year?

Frequency — a real problem that happens rarely is not necessarily a startup problem.

Response (write, voice note ref, or video timestamp):

Only in a week

Q7

Do you know other traders who deal with the same issue?

Referral — your next warm introduction and a signal the pain is shared, not personal.

Response (write, voice note ref, or video timestamp):

TradeFlow NG

Field Interview & Outreach Sheet

For traders, wholesalers, aggregators, and market sellers. 10-15 minutes. Discovery before demo — do not mention TradeFlow NG until Section B.

Date: 11/9/2026	Market: Apapa	State: Oyo State
Interviewer: Oladale Olofinwa	Media ref (voice/video):	Respondent's first name (optional): Mrs Oyo

Respondent profile — capture this before starting Section A

Job type: ☐ Wholesaler ☒ Retailer ☐ Aggregator ☐ Farmer-seller ☐ Other:	Commodity/ies traded: Yam	Years in this market: 3 years
---	------------------------------	----------------------------------

SECTION A — Discovery — Understand Before You Pitch

Do not mention TradeFlow NG, apps, forecasting, or AI in this section. Let them talk. Don't suggest answers.

Q1 Walk me through the last time you bought or sold this commodity. How did you decide where to buy, where to sell, and what price to accept?
Workflow — the actual decision process, not their description of a problem.

Response (write, voice note ref, or video timestamp):

I buy from the Cheapest market / seller
I sell close to my house because of transport
fare, and I sell what I buy by adding small
price to it as gain.

Q2 What made you decide to make that particular trip or trade at that time?
Trigger — the moment the decision becomes necessary. Product timing depends on this.

Response (write, voice note ref, or video timestamp):

Whenever my stock / goods is getting low I
there is an additional money with me, so
I invest it to my business

Q3 Tell me about a time you moved goods and the market didn't go as expected. What happened?
Where it breaks — a story is stronger evidence than an opinion. Listen fully, don't interrupt.

Response (write, voice note ref, or video timestamp):

The buyers returned them
 I returned some to the seller
 I eat some

Q4

When you're deciding, what information do you currently rely on — calls, WhatsApp groups, drivers, personal experience, market associations? Where does that usually come from?

Current alternatives — reveals the informal network you're actually competing with, not "guesswork."

Response (write, voice note ref, or video timestamp):

Phone call to the market through some
 market friends
 Send Drivers

Q5

What does that cost you — in money, time, or lost profit? (Probe for a number: airtime, transport, a driver's tip, a middleman's cut, a wasted trip.)

Cost of workaround — this is stronger pricing evidence than any "would you pay ₦X" question.

Response (write, voice note ref, or video timestamp):

Transportation
 Driver's tip
 Airtime

Q6

How often does this happen — every trip, monthly, only a few times a year?

Frequency — a real problem that happens rarely is not necessarily a startup problem.

Response (write, voice note ref, or video timestamp):

It depends
 whenever my stock is low.

Q7

Do you know other traders who deal with the same issue?

Referral — your next warm introduction and a signal the pain is shared, not personal.

Response (write, voice note ref, or video timestamp):

Some
