TradeFlow NG

MEMBERS Quadri Adebisi, Kushimo Quam Tobi
TERM 24 Aug 2026 – 18 Sep 2026
PRINTED 15 September 2026

01 Problem

For Market traders, the repeated problem is the struggle to make profitable sourcing and selling decisions because they lack timely, reliable information on commodity prices and market conditions across markets..

02 Solution

TradeFlow NG is building timely market intelligence, price forecasts and transport-aware recommendations for traders to achieve more profitable buy/sell decisions..

03 UVP

We help traders do the work of knowing where and when to buy or sell commodities better by providing them with timely market prices, forecasts and transport-aware recommendations, unlike the random phone calls and guesswork they rely on currently.

04 Unfair Advantage

A competitor starting today would need years to build a comparable network and proprietary market dataset because TradeFlow NG combines locally collected market intelligence from agents across multiple markets with commodity-specific forecasting and trade-route optimization..

05 Customer Segments

Primary ICP: Agricultural Trader in Ibadan, behavior: Guesses and makes random phone call to contacts to get tomato (and other agricultural products), JTBD: Getting them a reliable market information and recommendation that improves the decision making and helps them sell/buy better..

06 Key Metrics

Key Metric 1: Recommendation Conversion Rate - (Traders executing buy/sell based on recommendation / Total recommendations delivered) * 100
 - Target: 30% execution rate within 30 days
 Key Metric 2: Data Network Reliability - (Verified market updates received / Total scheduled agent updates) * 100 - Target: > 85% weekly submission rate

07 Channels

Primary channel: Direct market outreach, trader association partnerships, and peer referrals. Trust tactic: Free trial showing verified historical price accuracy alongside local agent phone validation. CAC assumption: 2000.

08 Cost Structure

COGS: Naira 12,000
 Operation Cost: Naira 80,000
 Customer Acquisition Cost: Naira 2,000
 Other Costs: Naira 100,000
 Total Cost: Naira 194,000

09 Revenue Streams

Model 1: Subscription = Naira 300,000
 Model 2: Resale / Arbitrage = Naira 960,000
